

ACM 90 - 1000. 2000. 3000

**AUTOMATIC WASHING MACHINE SUITABLE FOR TUBES AND PROFILES
SUITABLE FOR COUPLING TO SAWING AND/OR DEBURRING MACHINES**

Washing Section

including:

- Wash tank;
- Motor pump;
- Stainless steel revolving drum, equipped with flaps for parts positioning, driven by step by step feed
- Filter basket in stainless steel;
- Oil separator;
- Automatic dispenser for liquid detergent;
- Automatic level of the liquid detergent;
- Drying section equipped with blowing fans adjustable temperature.

Designed for : round tubes
min 10 mm, max 90 mm

square tubes
min 15x15, max 60X60 mm

rectangular tubes
min 20x15, max 70x40 mm

Technical data

Product length : min 150 mm
max 2000mm / 3000mm

Cycle time : from 2 to 30 seconds

Heating : 24 / 36 KW

Pump motor : 5.5 KW

Blower hot air
drying zone motor : 4.4 KW (2 x 2.2 KW)

Drying system power
(2 groups and 2 resistances)
Adjustable temperature : 24 KW (2 x 3 x 4 KW)

Inlet height : 850 mm

Output height : 715 mm

Machine's outside
dimensions L x w x h : 3500/4500 x 2200 x 1700 mm
